

# OLOWOOKERE FAITH AYODEJI

## OBJECTIVE

Result Oriented software Engineer with 5 years' experience in analysis, design, development, testing, and implementation of various internet-based applications. Proficient in a variety of platforms and languages, Skilled at team collaboration while working independently in remote environments

## SKILLS

- Communication
- Software Development
- Problem-solving (*Analytical thinking, Troubleshooting, debugging*)
- Graphics design (*Photoshop, Corel draw*)
- Programming language: *PHP, JavaScript, Python, Html5, CSS, SQL, framework (Django, react, Laravel), Database (MySQL, MongoDB)*
- Critical Thinking
- Leadership
- Software Testing
- Operating system (*Linux, Windows, macOS*)

## EXPERIENCE

---

AUG 2018 – SEP 2022

### Software Engineer – Folasoft Technology – Ilorin, Nigeria

- Checked client code for bugs and weaknesses using approved troubleshooting methods.
- Partnered with development team on product development, application support plans and prototype programs.
- Installed and configured software applications and tested solutions for functionality.
- Analyzed proposed technical solutions based on customer requirements, budget and product goal.
- Collaborated with clients to define solution requirements, accounting for applicable development variables.
- Gathered and defined customer requirements to develop clear specifications for project plans.
- Adjusted design parameters to boost performance and incorporate new features

DEC 2022 – MAY 2023

### Web Developer – Subcity Global

- I developed a web platform that enables users to navigate to their respective point-of-sale software systems. In addition to this, I made valuable contributions to the platform's design, aesthetics, and development patterns.

FEB 2016 – APRIL 2018

### IT support staff - Airtel Nig

- Helped customers navigate choices between services with support for questions such as terms, pricing and availability
- Planned annual customer outreach events to strengthen brand initiatives and maximize outreach.
- Connected customers with services based on individual needs and vendor capabilities.
- Partnered with development team on product development, application support plans and prototype programs.

## ADDRESS

- Ota, Ogun State.

## PHONE

- +2349015050304

## PERSONAL DATA

- Sex: Male
- Marital status: Single
- Nationality: Nigerian
- Date of Birth: Oct 23<sup>rd</sup>
- State of Origin: Akure South

## EDUCATION

---

- Higher National Diploma in (HND) Computer Science
- National Diploma (ND) - Distinction in Computer Science) Coursework emphasis in programming, software Design, and Systems Administration
- West African School Certificate
- First school leaving certificate

## PROJECT

---

### POINT OF SALES SOFTWARE

URL LINK: <http://pointospro.famouzcoder.com/>

- Developed a web application using PHP, JavaScript, and Laravel framework to streamline the customer onboarding process, resulting in a 20% increase in efficiency.
- Implemented a user-friendly frontend interface using React and Bootstrap for enhanced user experience.
- Designed and optimized the database structure for efficient data storage and retrieval.
- Inventory Management: Track and manage inventory levels, stock movement, and automated reordering. Get real-time updates on stock availability and receive notifications when items are running low
- Customer Relationship Management (CRM): Maintain customer profiles, purchase history, loyalty programs, and targeted marketing campaigns. Offer personalized discounts, rewards, and track customer preferences.
- Integration with Hardware: POS software should seamlessly integrate with barcode scanners, receipt printers, cash drawers, card readers, and other peripherals for efficient and accurate transactions.

### E-LEARNING PLATFORM

URL LINK: <https://famouzcoder.com/elearning>

- digital platform designed to provide educational materials and resources to learners through the internet, offer a wide range of courses and training programs that can be accessed remotely by learners from anywhere in the world. it contains some certain feature such as:
- Course Management: This feature enables instructors to create and manage courses, including creating course content, managing assignments, setting up assessments, and grading.
- Learning Management System (LMS): An LMS is a software application that provides learners with access to learning materials, course content, and assessments. It also tracks learner progress and provides analytics and reporting.
- Multimedia Content: E-learning platforms support multimedia content, including video, audio, images, and interactive elements to make learning more engaging.
- Communication Tools: Communication tools, such as chat, discussion forums, and email, allow learners to communicate with instructors and peers, ask questions, and collaborate on projects.
